IMMEDIATE OPENING

Title: Senior Property Loss Control Engineer

Location: Duluth, Georgia (Metro-Atlanta)

Basic Qualifications: Harrington Group is seeking an experienced Highly Protected Risk (HPR) property loss control engineer with 10 – 15 years of experience, specific to fire and dust risks. Professional experience and credentials required will include the following key elements:

- Two to eight years of experience as a field engineer with a major industrial property insurance underwriter with a heavy focus on HPR clients.
- Two to seven years of experience as an account engineer with a major industrial property insurance underwriter, or national/regional insurance brokerage firm, with responsibility to serve property insurance-driven clients, including a heavy focus on HPR clients in various manufacturing industries.
- Creative and effective problem-solver.
- Elementary and advanced training and experience in both fire and combustible dust risk assessments and mitigation development.
- Successful experience as a staff supervisor and client manager.
- A BS in engineering from an accredited program in fire protection engineering, or a major engineering discipline such as mechanical, electrical, chemical or civil, is required.
- Registration as a Professional Engineer (P.E.) (or ability to become registered within 1 year) is required.

Job Performance Demands:

- Ability to perform confidently and decisively, balancing the need for adherence to standards and the need for creative and impactful solutions for clients.
- A high tolerance for changing deadlines and project focus and demands.
- The ability to juggle multiple priorities with ease and proficiency.
- Confidence to independently manage project demands.
- Equally proficient in client service / interaction and analytical / engineering problem solving.
- Superior ability to meet and develop strong, close relationships with a wide variety of clients.

Additional Information

Compensation and Benefits: Compensation will be based upon individual experience and potential, and will be competitive. The benefit package includes a comprehensive healthcare plan with cost sharing, short-term and long-term disability insurance, 401(K) with a company match, and an annual cash bonus based upon company and individual performance. A generous paid-time-off plan is also provided.

A relocation package may be offered, based upon the needs of the individual.

A signing bonus may be available for the right individual.

Career Opportunity: Harrington Group, Inc. was founded in 1986 in Atlanta, and has since grown to become one of the largest firms headquartered in the southeastern United States dedicated to fire, combustible dust, and property loss control consulting. We enjoy a national reputation for honest and hard work, creative solutions, and exceptional value delivered to our clients. We are well managed and profitable. We are currently growing and demand for our services is high. Our 5-year plan includes continued strong growth, which will provide opportunities for our associates to grow in responsibility and compensation.

Harrington Group is an Open-Book company. We share all company financial performance information with our associates on a monthly basis. We encourage our associates to "think like owners" and participate in the continuous improvement of the firm, based upon real-time financial performance information.

Contact: If you are excited about this career opportunity, and feel you are right for the position, please contact us by emailing your resume, or calling:
